

## CHEMICAL SERVICE WAIVER

You have chosen to receive a chemical service with Moon Boutique Salon. We pride ourselves on our high level of skill and our long-lasting relationships with our guests. Here are some tips that can make your service results more successful:

- Chemical services can have varying results based on the individual's hair. It is extremely important that you make your stylist aware of your complete hair history including any and all other processes your hair has endured.
- Please understand that maintaining the health of your hair is **your** responsibility once you leave the salon. Post service, your stylist will recommend the necessary reparative products for you to use following your appointment.

### **Liability Waiver**

I have been made aware by Moon Boutique Salon, that I am choosing to receive a chemical service. I have made my stylist aware of my hair history including any and all processes used on my hair in the last 4 years to assist in their assessment of my hairs current status and the process necessary to receive my desired results. I realize that this is very important information and that any information I withhold regarding my previous processes will increase my chances of damage and the potential for unpredictable chemical reactions. Chemical processes may cause damage to the integrity of the hair. There are products recommended to improve the health of my hair as well as maintain the results after the service. I am aware that my technician has been trained in this service technique and that they will do their absolute best to create the best results and therefore will not hold Moon Boutique Salon or any of its employees liable if the process has unexpected or undesirable results.
